

The RLCWA Water Tap Installment Plan is open to all existing residences that are adjacent to any of our current water mains as well as along any future planned line extensions. Residential developers, new construction and commercial properties are not eligible for the Plan at this time.

For a minimum, non-refundable down payment of only 20% of the current tap fee you can set up an installment plan that divides the remaining tap fee balance over a period of 36 months. The water tap will be installed as soon as the down payment has been received with the remaining balance payments added to your monthly water bill.

This program is a limited time offer. It will only be available until October 1, 2021. So, take advantage of this great, affordable opportunity to receive the best tasting water in rural Ohio.

If you are interested in becoming an RLCWA customer, please contact our office at (440) 355-5121 for more information on this convenient payment plan.
